

December 1, 2008

**Fremont Cemetery Trustees
Meeting Minutes
December 1, 2008**

The meeting was called to order at 3:30 pm at the Fremont Town Hall, basement meeting room.

Present: Cemetery Trustees Roger Anderson, Richard Rand, Robert Stackpole and Recording Secretary Meredith Bolduc.

Mr. Stackpole made the motion to accept the minutes of the October 6, 2008 meeting as written. Motion seconded by Mr. Rand with unanimous favorable vote.

Village Cemetery

Gates: Mr. Anderson has said that Don Denney related to him that the gates for the Village Cemetery were brought to Fremont Welding on Sandown Road some time ago to be fixed. Mr. Anderson said that he has not checked with Larry Lourette (Larry-the-welder) to find out if the 4 sections of cemetery gates are still at the welding business. It was agreed that Mrs. Bolduc will contact Mr. Lourette to check on the status of the gates.

Loam: The Trustees agreed to wait until Spring to price loam to fill low areas and around some monuments.

Leavitt Cemetery

Repairs: Mr. Rand and Mr. Anderson stated that the gates are still in need of repair and, as previously noted, broken monuments and bases have not yet been fixed.

Plot Descriptions and Numbering: It was agreed that descriptions of the sections of Leavitt Cemetery should be as follows: A= the old section in the front; B = the other (newer) front section; C = the right rear section; and D = the left rear section. The numbering would follow as, *for example* = the first plot in section A would be labeled as #1 and if there were more one than gravesite in that plot they would be lettered as grave 'a', grave 'b' etc.; so the second grave of plot #1 in Section D would be described as D-1-b.

There was a discussion relative to site sizes and distances between graves and how it related to the number of grave sites and plots that would be available. The Trustees all agreed that the

Cemetery Trustees Meeting Minutes

plots should be sold in sequence in order to not confuse the measurements and deeds and so that monuments can more easily be installed.

Loam: Mr. Rand said that the loam stock-piled as a result of clearing for the new burial sites could be used for fill throughout the cemetery. The other Trustees agreed.

Records

The burial records for both cemeteries were discussed. It was agreed that Mrs. Bolduc will work with Mr. Rand, and the other Trustees when they have time, to create a log for both Leavitt Cemetery and Village Cemetery that will cross-reference plots and sites on the plan layouts. She will contact Trustee of the Trust Funds Pat Martel to find out if there are any prior written logs.

Incoming Correspondence:

Notice of the December 10, 2008 Holiday Gathering for community volunteers, employees and board members.

Next meeting

The Trustees agreed to meet at 3:30 pm on February 2, 2009.

At 4:25 pm Mr. Anderson made the motion to adjourn the meeting. Motion seconded by Mr. Rand with unanimous favorable vote.
